

XIII TROBADA TRANSFRONTERERA SOBRE SENSORS I BIOSENSORS XIII RENCONTRE TRANSFRONTALIERE CAPTEURS ET BIOCAPTEURS XIII ENCUESTRO TRANSFRONTERIZO SOBRE SENSORES Y BIOSENSORES

Centre de Congressos
d'Andorra la Vella, Andorra
September 18-19, 2008

Andorra, the beautiful little country in middle of Pyrenees, well known for the white sports & vacations, will be hosting this traditional annual meeting on biosensors, a multidisciplinary and hot topic field of the current science in general and especially for bio and nanotechnologies .

Andorra 2008 aims at getting together researchers working in the field of sensors, biosensors and nano(bio)systems in the Euroregion formed by Catalonia, Languedoc-Roussillon and Midi-Pyrenees as well as in other related areas from Spain and France.

Andorra 2008 will be dedicated to the applications of sensors and biosensors in the everyday life with a special emphasis to the nano(bio)sensing systems in diagnostics, quality control and security. The use of nanomaterials, synthetic and natural receptors will be the others focusing centers of this meeting. This meeting will aim also to get together novel ideas with interest for future projects applications in the framework of EU FP7 program.

Important Dates:

- April 15th - April 30th:** A website will be linked at www.nanoaracat.com/difusion.html with more information including the program and the call for oral and poster presentations
- June 1st - June 15th:** Poster and Oral Presentation Abstracts will be sent.
- July 10 - July 31st:** Inscriptions period and final program
- Sept. 18th-Sept.19th:** Meeting in Andorra

Coordinated by:

*Institut Català de Nanotecnologia, Bellaterra (Barcelona), Catalonia, Spain and
Instituto de Nanociencia de Aragón, Zaragoza, Aragón, Spain
with the support of Nanoaracat , Nanobiomed and Societat Andorrana de Ciències
Contact Person: Ana de la Osa (ana.delaosa.icn@uab.es)*
