

Experimental Officer position / Technician

Atomic Manipulation and Spectroscopy Group

Institut Català de Nanotecnologia

Barcelona, Spain

Applications are invited for an Experimental Officer position in the field of Physics and Material Science. Candidates are expected to have working knowledge of ultra-high-vacuum equipment as well as in the design and/or setup of laboratory equipment. Experience in one or more of the following fields will be positively evaluated: molecular beam epitaxy, surface preparation/analysis techniques, electronics, mechanical handwork, nanofabrication. Candidates shall possess good command of English. Candidates with a PhD or university degree in one of the above fields will be given priority, with salary depending on qualifications. The position is initially for a period of one year and, depending on yearly evaluation, can be renewed indefinitely. Interested applicants may request further information or send their cv and the contact details of at least one referee to Prof. Pietro Gambardella at the email address given below. Please note that only shortlisted candidates will be contacted.

The Institut Català de Nanotecnologia is located within the campus of the Universitat Autònoma de Barcelona, 25 minutes by metro north from the city of Barcelona. Further information about the institute and our group can be found at <http://www.icn.cat> and <http://www.cin2.es/ams>.

Review of applications will start immediately and continue until the position is filled. The starting date is flexible.
